苏州纽澜机械有限公司

SUZHOU NEWLINE MACHINERY CO., LTD

WORLD

INTRODUCTION :

SUZHOU NEWLINE MACHINERY CO., LTD is a stockholding-system new and high-tech enterprise approved by Government and listed in Zhangjiagang. Our company is mainly engaged in the development, production and marketing of non-gas beverage filling line, milk, juice hot filling line, syrup filling line, water treatment system etc.

Most of our company's staff engaged in production for over 10 years with abundant design and development experience. With scientific progressive conception of rapid introduction, we make our machinery cover all over the overseas market. We have been producing our goods with mature technique and first-class quality. Our products are not only marketed inland, but also exported to tens of countries such as Saudi Arabia, Nigeria, Malaysia, Indonesia and Egypt. Every year we will attend the exhibition, like Malaysia, Nigeria, South Africa, Saudi Arabia etc.

We warmly welcome customers all over the world visit our manufacture.

It is developed by advanced bottle blowing technology and has the advantage of high-level fulling automatic, stable working performance, simple structure but high working efficiency.

Bottle blowing machine

PE film shrink packing machine can apply to the full automatic packaging production line of bottle beer, beverage, pure water, fruit juice, dairy products, etc.

PE film shrink packing machine

Water treatment machine is mainly used in Medicine, Chemical industry, Electro-plating, Domestic water, Food and beverage, Cosmetics, Bitter, Sea water desalination, Bioengineering, Experimental water and Micro-electronics.

Water treatment system

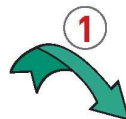

The machine is mainly applied to fill non-gas beverage which integrating with washing, filling and capping. It is suitable for polyester bottle and plastic bottle with all volumes and shapes. It is designed more compact and stable of controlling system, easy to operate and high automatically.

Bottle Washing/Filling/capping 3in1 machine

It is using the high-speed equipment equivalent PLC, positioning module, servo motor and inverter, touch screen user-friendly operation.

Sleeve labeling machine
