A promotional poster for Pharmatech East Africa 2022. The top section features the event title "Pharmatech East Africa" and dates "20 August at 14:09". Below this, it states "10 days to go for Pharmatech East Africa International Expo 2022!" and lists participating countries: Tanzania, India, Kenya, and others. It also mentions "East Africa's largest Pharma, Medical and Healthcare dedicated International Exhibition." and provides the dates "Dates: 20 August - 1 September, 2022... See more". The middle section has a blue background with a large red diamond containing the number "10" and the text "DAYS TO GO". To the right is the "PHARMATECH EAST AFRICA" logo, which includes a stylized cross icon. Below the "10 DAYS TO GO" graphic, it says "EAST AFRICA'S LEADING PHARMA, MEDICAL AND HEALTHCARE INTERNATIONAL EXHIBITION" and "30th August To 1st September, 2022 Diamond Jubilee Hall, Dar es Salaam, Tanzania". At the bottom left is a red button that says "MUST VISIT". At the bottom right is the website "www.eastafricapharmed.com". The very bottom of the poster displays logos for various sponsors and partners, including TMDA, IAB, KEMRI, NIDA, MSD, HIVA, and others.

**PRIORITY** Agriculture members say, demand for finance in the key sector outstrips supply for far

## Govt builds case for more agriculture sector funding

Agriculture accounted for more than 25 per cent of the country's gross domestic product (GDP) in 2011, but the sector lacks adequate financing, says a report by the National Bureau of Statistics (NBS).

By **Adeniyi Yusuf**

Over the last three years, the government has been building a case for more investment in the agriculture sector, which is the backbone of the country's economy. The government has been pushing for more investment in the sector, which is the backbone of the country's economy. The government has been pushing for more investment in the sector, which is the backbone of the country's economy.

The report by the NBS, which is the country's official statistics agency, says that the agriculture sector has been the main source of employment for the country's population. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of government revenue.

In fact, one of the main reasons for the government's push for more investment in the agriculture sector is the fact that the sector has been the main source of employment for the country's population. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of government revenue.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

Agriculture minister, Hassan Koko

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

One reason, he says, is that the sector has been the main source of employment for the country's population. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of government revenue.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

He also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

NATIONAL NEWS

## Three-nation Rumsom power project 'on track'

By **Adeniyi Yusuf**

The Rumsom power project, a joint venture between the Nigerian, Kenyan and Tanzanian governments, is on track to be completed by 2015, says a report by the Nigerian Electricity Regulatory Commission (NERC).

The report says that the project has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

The report also says that the sector has been the main source of government revenue. It also says that the sector has been the main source of foreign exchange earnings for the country. The report also says that the sector has been the main source of employment for the country's population.

**The rise and fall and rise of Eric Hamissi**

Hamissi's rise to the top of the business world in Kenya has been meteoric. He has built a vast empire, with a net worth of over Sh100 billion. However, his fall from grace was equally dramatic. He was accused of fraud and embezzlement, leading to his arrest and the seizure of his assets. Now, he is back in the public eye, but his reputation is far from what it once was.
